Maths Aotearoa Practice Workbooks

Click on the Book number or the year group to find the workbooks directly linked to the Maths Aotearoa Books

(These workbooks can be used to supplement any programme of work)

Year 1 Book 1A

Number Workbooks 1 - 12

Measurement Workbooks - Capacity, Length, Mass & Time

Year 2 Book 1B

Number Workbooks 13 - 25

Year 3 Book 2A

Number Workbooks 1 - 13

10 Maintenance sheets (covering work from Year 2)

Year 4 Book 2B

Number Workbooks 14 - 26

10 Maintenance sheets (covering work from Year 3)

Year 5 Book 3A

Number Workbooks 1 - 8

10 Maintenance sheets (covering work from Year 4)

Year 6 Book 3B

Number Workbooks 9 - 16

10 Maintenance sheets (covering work from Year 5)

Year 7 Book 4A

Number Workbooks 1 - 6

10 Maintenance sheets (covering work from Year 6)

Year 8 Book 4B

Number Workbooks 7 - 11

Under development - 10 Maintenance sheets (covering work from Year 7)

Multiply & Divide by 12

Maths Gym

A series of workbooks with a coaching session, warm up, workout and cool down to assist students to build knowledge and understanding of the multiplication tables in a structured sequence.

1. Understanding arrays
2. Two Times Table
3. Ten Times Table
4. Five Times Table
5. Exploring Division
6. Doubling x 4 x 8
7. Three Times table
8. Nine Times Table
9. Doubling x6 x 12
10. Seven Times Table

Agility Course 1 (2s, 5s, 10)

Agility Course 2 (All other tables)

Geometry

Clicking on the Heading of the section (dark blue box) will open a link to all the subsequent folders and any additional material not directly linked to a particular phase.

- Wilkie Way pocket guides:
 1. Beginning Geometric Thinking
 2. Developing Geometric Thinking
 3. Further Developing Geometric Thinking
- 2D Shape Assessment Screen

Phase One

Before. After, Between
(Video lesson)

Following & Giving Directions
(video lesson)

Puzzles

Sorting 2D shapes

Name my Shape

Phase Two

Giving and Following Directions

Using grid references
(video lesson)
Grid references & compass points
(video lesson)

Properties of Shapes
Lines, angles, triangles
(video lesson)
Circles & triangles
(video lesson)

Phase Three

Bearings to Describe position
(video lesson)

Graduated Problems on a Theme (currently 38 sets - includes teacher notes & answers)

Each theme has 4 problems using mathematics from across the curriculum with the problems increasing in cognitive and knowledge demand. Ideal for assessment purposes. As a general rule:

Year 1 & 2 Success on problem 1 - problem 2 a guided teaching problem

Year 3 & 4 Success on problems 1 & 2 - problem 3 a guided teaching problem

Year 5 & 6 Success on problems 1, 2 & 3 - problem 4 a guided teaching problem

Year 7 & 8 Success on problems 1 - 4

Maths Challenges

A mixed bag of currently 27 challenges - select a few and have them as independent activities or for when students have completed set work.

Rich Learning Tasks

| Phase One | Phase Two | Phase Three |

Dice & Counter Games

Most of these games are played with dice and counters or paper and pencil
Print in either A4 or A3

Some sets of games are available ready printed (A4) on laminated card ready to use in the Wilkie Way online store. These are now discontinued so are being sold at a discounted price. (\$12 for 4 games + p&p)

This is a guide to the resources available to Wilkie Way members as in August 2025

New Material is added to the website frequently.

An annual individual membership \$60. Purchase a membership at the online store or use the purchase a membership icon on the home page of wilkieway.co.nz

Please remember as an individual member you may not share the resources with any of your colleagues.

An annual school membership is available dependent on the number of students in your school. Complete the form for a school invoice at the online store, or use the purchase a membership icon on the home page of wilkieway.co.nz

| | |
|--------------------|-------------|
| Up to 30 students | \$65 + GST |
| 31 - 100 Students | \$180 + GST |
| 101 - 300 Students | \$290 + GST |
| 301 - 500 Students | \$400 + GST |
| 501 - 700 Students | \$520 + GST |
| 700+ Students | \$630 + GST |

With a school membership you may share resources with colleagues within your school only.

This is a very cost effective way to access quality numeracy resources.

The annual membership runs from the month of your subscription.

Non NZ schools \$750 payable by paypal.

Learning Progressions

- Addition & Subtraction
- Algebra
- Fractions
- Geometry
- Measurement
- Multiplication & Division
- Place Value

All professional learning material has been updated to reflect the refreshed curriculum.

Overview plans and unit plans are set by year group but these word documents can be combined and altered to meet the actual needs of your class which enables you to differentiate by seeing where you can further scaffold and extend as required.

No one can actually do your planning for you if you are really meeting the needs of your students rather than delivering a set programme.

Click on the assessment heading to find all the files listed below.

Click on the learning progressions heading to find the progressions for each section of the curriculum. These progressions are intended to help you build your knowledge as you learn to integrate and connect these progressions in your classroom programme.

Integration and connections become easier when you have knowledge of the progressions - the more knowledge you have the more connections you will see.
